

Digital Nitrogen Tyre Filling

- 1. Digital display, can read current temperature & nitrogen to decrease high temperature safety valve between temperature.
- 2. Long time work, auto stoppage, auto stop pressure.
- 3. Auto stoppage pressure, auto stop pressure & temperature high.
- 4. Auto stoppage pressure, auto stop pressure & temperature high.
- 5. Auto stoppage pressure, auto stop pressure & temperature high.

TECHNO 378

Full automatic Nitrogen Inflator with Vacuum Mode

Technical Specification >>>

TECHNO 378

Power	AC220V/ 50Hz
Nitrogen Purity	95% -99.5%
Input Air Pressure	8 - 10kg/cm ²
Output Nitrogen Pressure	6 - 8kg/cm ²
Nitrogen Production Speed	35 - 55/L/min
Operating Temperature	-20°C --+60°C
Dew-point Temperature	< 2 ^o C
Range of measurement	0-4.5KG/CM ²
Breakdown Pressure	>10KG/CM ² 1>50PSI
Precision	+1%+0.5PSI
Display Mode	Blue"14*7" LCD backlight digital display
