

Pinless

Twin Hammer

1” Truck Impact Wrench

Technical Specification >>>

impact

Structure Diagram	Impact Type	Applicable market	Description
	<p>Pin-Less Impact Mechanism</p>	<p>Suitable for auto repair such as automobile, truck repair, tire repair, long life, easy maintenance</p>	<p>Because the screws of the auto repairs plant generally have rust, dust, Pin-less mechanism can increase the force of each blow when the screws have dust and rust. So it is particularly suitable for auto repair plant</p>
	<p>Twin Hammer Impact Mechanism</p>	<p>Suitable for industrial use, including a variety of factories, with long life and easy maintenance</p>	<p>Because the factory screws, generally more standardised, and the factory pay attention to efficiency, Because Twin Hammer mechanicals Impact frequency is higher, so the factory prefers to use</p>
